 Coimbatore, India

SUMMARY

Full Stack Developer with experience building scalable web applications using Vue.js and Reactive Spring Boot. Skilled in designing RESTful APIs and working with MongoDB and SQL databases. Hands-on experience with Jenkins for build automation, event-driven systems using Kafka, caching with Redis, and cloud-based deployments

EXPERIENCE

Full Stack Developer - Software Engineer

Tiket

-  02/2026 - Present
-  Coimbatore, India
- Developed an asynchronous in-app and push notification system using Apache Kafka and Google Firebase services, enabling reliable event-driven delivery of real-time alerts to **10,000+ users** across multiple devices.
 - Implemented compound indexes and refined aggregation pipelines by analyzing execution plans, reducing aggregation latency by **25%** and enhancing throughput.
 - Implemented centralized configuration and dynamic feature toggles, including on/off switches and role-based permission controls, reducing configuration changes from an **hour to seconds** and streamlining deployments.

Full Stack Developer - Software Engineer

Quinbay (A Blibli company)

-  06/2024 - 02/2026
-  Coimbatore, India
- Developed a scalable full-stack application using Vue.js, Reactive Spring Boot, and MongoDB, cutting latency for frequently used APIs by **30%** through indexing and backend optimizations while improving reliability.
 - Took ownership of the end-to-end migration of the Java microservices to GraalVM 25, troubleshooted compatibility and performance issues, and reduced memory usage by **80-90%**.
 - Collaborated with cross-functional teams to deliver features on schedule while maintaining high code quality through best practices and code reviews, and leveraged AI automation tools to reduce manual effort by **30-40%**.

Production Planner & Electrical Engineer

FFG Mag India

-  11/2020 - 08/2022
-  Bangalore, India
- Used SAP ERP systems to manage materials, inventory, and production, increasing inventory visibility and cutting manual tracking effort by **90%**.
 - Worked with cross-functional teams to align production plans with organizational goals, increasing on-time delivery performance by **20%** in the year 2021.

EDUCATION

Bachelor of Engineering

Sri Krishna College of Engineering and Technology

 2022 - 2025

- Computer Science

CGPA

8.15 / 10.00

Diploma

PSG Polytechnic College

 2017 - 2020

- Mechatronics

%

93.6 / 100.0

SKILLS

Reactive Spring Boot (Java)			Vue.js 3
MongoDB	PostgreSQL & MySQL		
React.js	Node.js	Redis	Kafka
Git & Bitbucket	Docker	JIRA	
AWS, Google Firebase		Resilience4j	
QA Automation	AI automation tools		
Jenkins & SonarQube	N8N workflow		

PROJECTS

Local LLM Automation with n8n, Ollama, and Telegram Bot

Built a local AI workflow using n8n, Ollama, and Telegram Bot to automate message handling and enable conversational interaction with a self-hosted LLM.

Receipt OCR and Expense Categorization Bot

Building an AI workflow that analyzes receipt images, extracts text with OCR, categorizes line items, and automatically uploads structured data (amounts, categories, date/time) into Google Sheets.
